REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a glass feeder or a method of operation of the same as claimed wherein each of first and second burner head means produces flames extending in axially opposite directions, parallel to the side wall through which the burner passes, and adjacent to the side wall and glass surface as claimed. It would not have been obvious to modify the prior art burner structures as such.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
